Dear Dermot,

We are pleased to be able to comment on United Services Environmental.

Accumold Corporation is into our second year of working with United Services Environmental. Using the system that U.S.E. has set up for us, has simplified the process of keeping track of our many materials and chemicals. The service has given us the security of knowing we are in compliance with environmental guidelines as well as keeping this information organized and fairly simple to understand.

Dermot and Curt have also been a good resource to consult with on various questions our customers may have concerning our materials. We have found this service to be a time saver and a benefit in the growth of our company.

Please don't hesitate to call Maureen Sharp or myself if we can be of assistance.

Sincerely,

Tom Murphy
VP of Production
